The Sky's (More Than) The Limit at Veer

Vegas. Like a Boss.

We don't even know who this guy is and already we want to (house) party with him.

CityCenter has announced that Las Vegas businessman Benson Riseman has bought the penthouse atop Veer Towers' east, umm, tower. Riseman paid out \$2.3 million dollars for the 3,300+ square foot unit. You can get an idea of how to live like a boss by peeping what we think is [the floorplan here](#).

What's even more amazing, though, is that Riseman is planning to spend more than he laid out to purchase it... to design and decorate it. He's paying out \$3 million bucks to create his dream (pent)house with the help of architects, builders, designers, and more. We wonder if CityCenter will throw in a [Richard MacDonald](#) sculpture as a housewarming gift.
